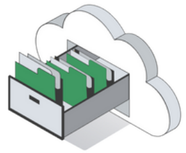
Why ArcFlow?



SME Tailored Cloud ERP System

AI-driven cloud-based ERP system tailored for small and medium-sized manufacturers.

End-to-End System

Facilitates seamless data and workflow continuity across modules and within the system.

AI Enabled & Real Time Capabilities

ArcAI enhances decision-making, automates tasks, and boosts productivity within your existing resource capacity.

De-Risking Digital Tool Adoption

No Setup Fee and our data team cleans, structures, and migrates your manufacturing data for successful ERP implementation.

ArcFlow System Overview

Video Overview

Blueprints

Create & manage items, assemblies, and products, along with their associated manufacturing routes.

Sales

Oversee and optimize complete sales cycles while managing customer relationships effectively.

Procurement

Manage procurement life cycles and oversee supply chain operations efficiently.

Warehousing

Inventory management, stock tracking, and the storage and distribution of goods.

Manufacturing

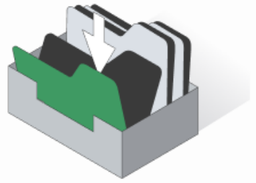
Manage production processes. including planning, shop floor operations, capacity & quality control

Fulfillment

Oversee customer order fulfilment, processing, and tracking of deliveries.

User Management

Monitor and manage employee performance and system access.



Document Hub

Store, manage, and track document uploads for transparency and compliance.

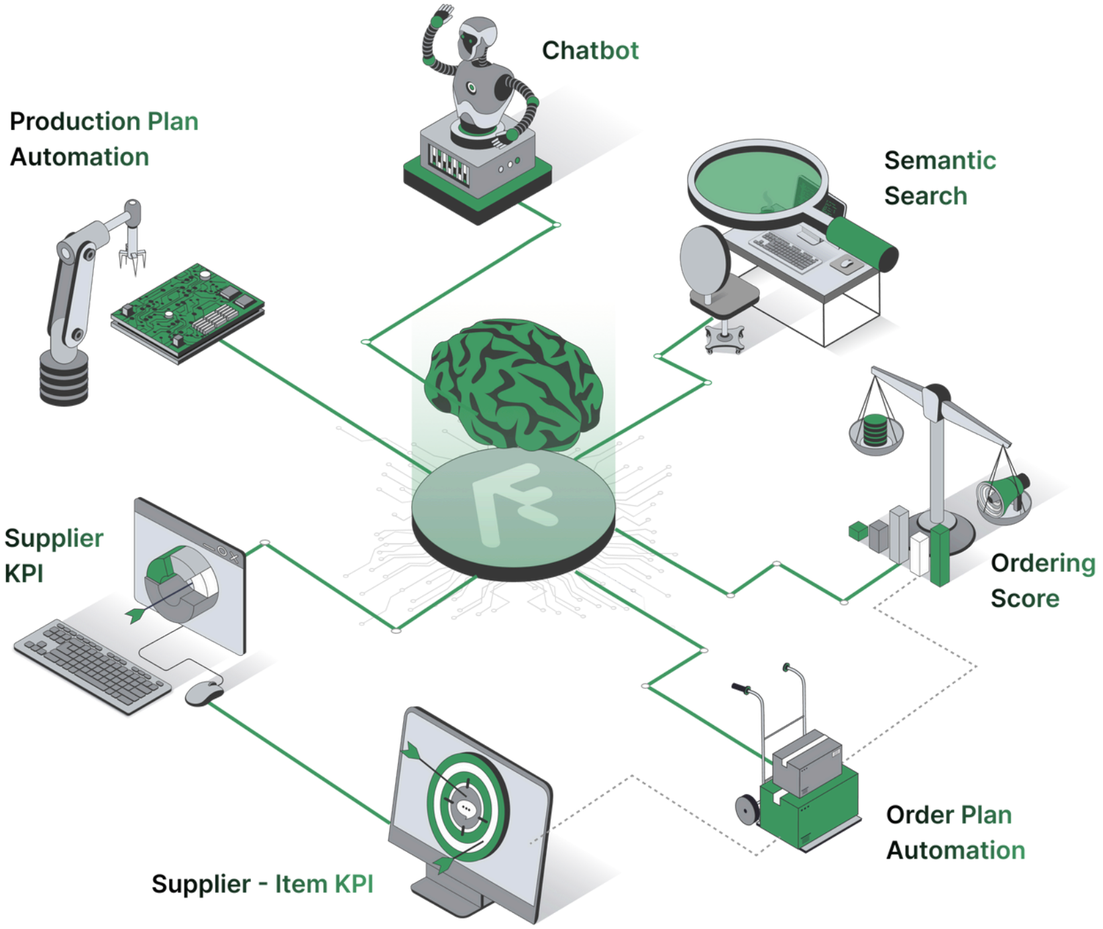
Artificial Intelligence

SME Benefits

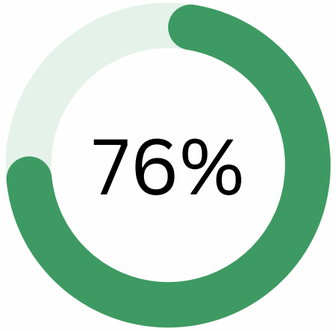
- ArcAI automates repetitive tasks, helping SMEs scale efficiently with their existing resources.

Core AI Features

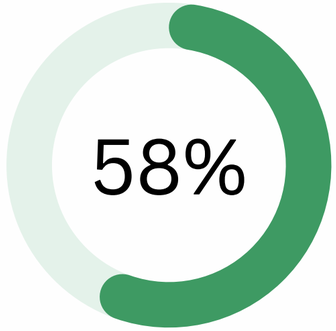
- The **Suppliers KPI and Selection** model assesses performance on key metrics and recommends the best suppliers during quoting and purchase orders.
- The **Order Plan Automation** model uses 37 key metrics to recommend items and quantities for ordering, tailored to meet constrained timelines.
- The **Production Plan Automation** model utilises 27 key metrics to provide recommendations on products, assemblies, and their respective quantities for manufacturing.



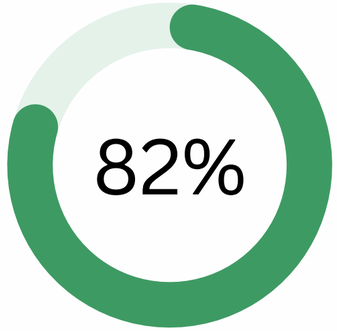
Productivity Benefits of ArcFlow



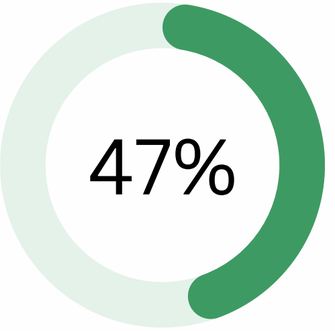
Reduced Order Plan Creation Time



Reduced Order Plan Life Cycle



Reduced Production Planning Time



Reduced Store Holding Cost
